

# **[Insert title of invention]SYSTEM AND METHOD FOR AUTOMATED COMMUNICATION BETWEEN WEBSITES AND WIRELESS COMMUNICATIONS DEVICES**

## **Abstract**

This is a system and mechanism that will allow websites to automatically communicate with their visitors and members by utilizing various web-based messaging gateways to send text messages (SMS). Websites enabled with this system will be able to send a text message to the members' wireless device communicating to them various information such as advertising messages, news, and other related information.
